

Scout Communications and Pioneering Project

Step 1 Build your Flagpole (Mast)

You may be asked to install either a HF or UHF radio.
The installation will vary a little so study the diagrams be for you start Planning and Building.

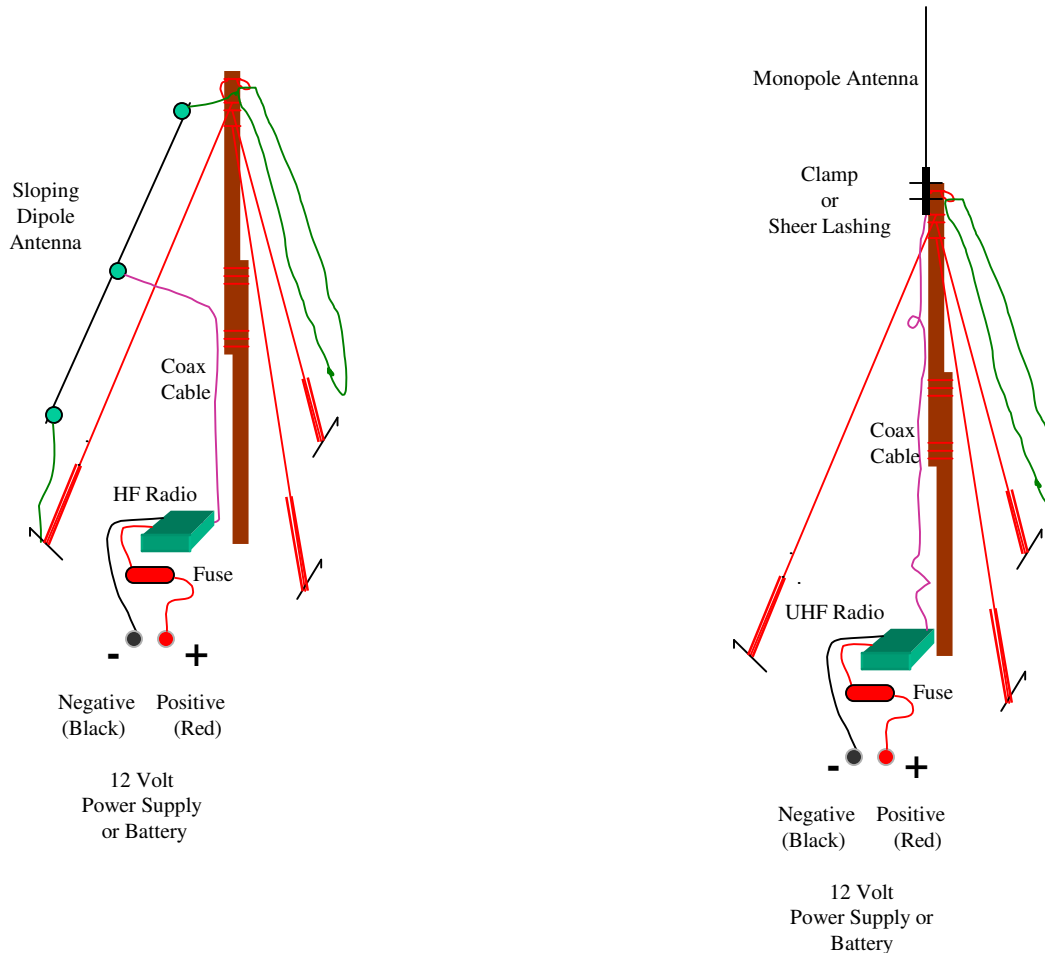

Basic 5 Meter Flagpole (Mast) using two 3 Metre poles.

Step 2 Install your Radio and Antenna

You may be asked to install either a HF or UHF radio.

The installation will vary a little so study all the diagrams before you start Planning and Building.

Notes

- Do not connect up power or switch on without having the installation inspected.
- Once you think it is ready and the leader gives the OK to connect you can connect the power and test the radio on the channel instructed.
- Remember to work safely.
- All Members of your patrol should be involved.
- The Leaders will sign off your Communications & Pioneering Badge sheet only if they are happy that you have worked as a team and you know what you have done and you have demonstrated the skills required.
